## Question Formulation Technique

---

**This one hour workshop will provide teachers with the strategies and resources to refine their practice in question formulation. Based on the work of Dan Rothstein and Luz Santana, participants will learn how to teach students to ask their own questions to drive learning. The workshop will model the procedures to assist students in producing their own questions and how to use those questions to guide learning.**

**Dates: January 9th OR 19th**

**Time: 3:30-4:30 pm**

**Location: HFM BOCES Conference Center**

**Participants will attend one workshop.**

# Enhancing Teaching Practices Science Phenomena Approach

---

In this one hour workshop, participants will engage with phenomena and will develop questions and models to construct explanations for scientific theory. This workshop will include an overview of the content and skills that are embedded in the Next Generation Science Standards.

Dates: January 23rd **OR** 26th

Time: 3:30-4:30 pm

Location: HFM BOCES Conference Center

**Participants will attend one workshop.**

# Enhancing Teaching Practices Math Instructional Scaffolding

---

In this one hour workshop, participants will learn a process in which teachers add support for students to enhance learning and aid in the mastery of persevering through word problems. The techniques are based on the work of Paul Riccomini from Penn State University.

Dates: February 6th & **OR** 16th

Time: 3:30-4:30 pm

Location: HFM BOCES Conference Center

**Participants will attend one workshop.**
